

# Plastic tubing PU-9-SW

Part number: 12134

FESTO

 [General operating condition](#)

## Data sheet

| Feature                                         | Value                                                    |
|-------------------------------------------------|----------------------------------------------------------|
| Outside diameter                                | 11.6 mm                                                  |
| Bending radius relevant for flow rate           | 76 mm                                                    |
| Inside diameter                                 | 9 mm                                                     |
| Operating pressure for entire temperature range | 0 bar ... 10 bar                                         |
| Operating medium                                | Compressed air as per ISO 8573-1:2010 [7:-:-]            |
| Information on operating and pilot media        | Operation with oil lubrication possible                  |
| LABS (PWIS) conformity                          | VDMA24364-B1/B2-L                                        |
| Ambient temperature                             | -35 °C ... 60 °C                                         |
| Product weight by length                        | 0.056 kg/m                                               |
| Pneumatic connection                            | For barbed fitting, inside diameter 9 mm, with union nut |
| Color                                           | Black                                                    |
| Shore hardness                                  | A 91 +/- 3                                               |
| Note on materials                               | RoHS-compliant                                           |
| Material of pneumatic tubing                    | TPE-U(PU)                                                |
