Individual cable lengths are often required nowadays. In order to meet these demands, Weidmüller offers a wide range of plug-in connectors for custom assembly. Male plugs and female sockets for customisable assembly for M8, M12, M16 and 7/8" connections which are highly robust and ideally suited to machine engineering, for instance. The 7/8" round plug-in connectors can transmit large amount of power. The screw connection can be used in a wide range of applications. With this technology the conductor, optionally with wire-end ferrules, can be plugged into connection elements and secured with a screw. It is the classic, cheapest form of connection technology that also supports multi-conductor connections.

General ordering data

| | |
|------------|---|
| Version | Sockets prefabricated to customer spec., 7/8", Socket, angled |
| Order No. | 1292020000 |
| Type | SAIBW-5/9-7/8 |
| GTIN (EAN) | 4050118086959 |
| Qty. | 1 pc(s). |

Creation date March 23, 2021 2:44:22 PM CET
