## Additional Information

|                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Описание среды                                             | BEY96-4 Connection Set for Star-Delta Starter is used to easily connect the main poles of an AF80 to AF96 to set up a Star-Delta. The connection sets are made up, for line contactor / Delta contactor of an upstream phase to phase connection, for Delta contactor / Star contactor a downstream connection in parallel, for star contactor a Star point upstream. The connection sets are made of insulated copper bar. |
