- Testing device for pluggable overvoltage protection VPU AC and VPU PV series
- Device for implementing the IEC 62305-3 standard (Periodic test)
- Handy device with integrated rechargeable battery set for on-site use measurements
- QR code leads to check value table
- Intuitive user guidance (English)

The V-TEST II is a compact, portable test unit for pluggable overvoltage protection of VPU AC and VPU PV series. The test device can be used to test surge protection in accordance with the test periods required by IEC62305-3. The measuring result of the protective element is shown in a backlit display. To determine the status of the protective element, the measurement result must be verified with the aid of the test table.
