SAI – logic module These devices allow the combination of signals by means of an AND or an OR gate. This function leads to a reduction in the amount of wiring. The required inputs to the PLC can be reduced by up to 6 inputs. This process therefore saves the amount of wiring and material in the field.

General ordering data

Version	Sensor/Actuator plug-in connector, M8
Order No.	2662450000
Type	SAIEND 1/4 M8G 3P
GTIN (EAN)	4050118677379
Qty.	1 pc(s).
