Universally configurable threshold value switch with changeover contact relay output and plug-in connection technology for switching analog limit values. Configurable via DIP switch or software. Push-in connection technology, standard configuration.

Product Description

Universally configurable threshold value switch with changeover contact relay output and plug-in connection technology for switching analog limit values. On the input side, current signals between 0 mA ... 24 mA and voltage signals between 0 V ... 12 V can be processed. A relay with changeover contact is available on the output side. It is then possible to switch loads up to 250 V / 6 A AC and 30 V / 4 A DC. You can configure the device using one of the free software solutions. Default settings can also easily be made directly on the device via DIP switches (see configuration table). The measuring transducer supports fault monitoring and NFC communication.

Key Commercial Data

Packing unit	1 pc
GTIN	 4 046356 649711
GTIN	4046356649711
Weight per Piece (excluding packing)	120.000 g
Custom tariff number	85437090
Country of origin	Germany
