Pluggable surge protective device free of leakage current, in accordance with Type 2/Class II, for 3-phase power supply networks with combined PE and N installed in one conductor (4-conductor system: L1, L2, L3, PEN), with remote indication contact.

Your advantages

- ✓ Surge protection family for universal use with optimum energy coordination from the lightning current arrester to the device protection
- ✓ Easy to maintain due to consistently pluggable protection modules
- ✓ Excellent level of information provided by mechanical/visual status indicator and remote indication contact
- ✓ More space in the control cabinet due to the narrow overall width of just 12 mm per position and use without separate backup fuse up to 200 A gG
- ✓ Suitable for use in insulation-monitored systems due to combination of varistor and gas discharge tube free of leakage current
