SUG/U1.1 Split Unit Gateway, FM

(ieneral	Information

Extended Product Type	SUG/U1.1
Product ID	2CDG110207R0011
EAN	4016779997362
Catalog Description	SUG/U1 1 Split Unit Gateway FM

The Split Unit Gateway forms the interface between the KNX system and many

manufacturers' air conditioners, so-called split units. The device converts the KNX telegrams into infrared commands and transmits them to the split unit.

The transmitter of the supplied cable is bonded directly onto the split unit's receiver. The split unit then no longer receives the commands from a remote control. Instead, it can be operated via any KNX sensors or via a visual display system. The device is put into operation with the ETS, and a free ETS app is available to select the split unit model.

Auxiliary voltage is not required.
