

# Clevis flange SNGB-160

Part number: 34547

FESTO

 [General operating condition](#)

## Data sheet

| Feature                          | Value                                                                     |
|----------------------------------|---------------------------------------------------------------------------|
| Size                             | 160                                                                       |
| Based on norm                    | ISO 15552 (previously also VDMA 24562, ISO 6431, NF E49 003.1, UNI 10290) |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress                                             |
| LABS (PWIS) conformity           | VDMA24364-B2-L                                                            |
| Ambient temperature              | -40 °C ... 90 °C                                                          |
| Product weight                   | 3445 g                                                                    |
| Note on materials                | RoHS-compliant                                                            |
| Mounting material                | Die-cast aluminum                                                         |
| Bolt material                    | Steel<br>Galvanized                                                       |
| Material of bearing              | Polymer                                                                   |
| Disc material                    | Steel, galvanized                                                         |
| Material of screws               | Steel<br>Galvanized                                                       |
| Fuse material                    | Spring steel, galvanized                                                  |
