SIEMENS

Product data sheet 3RP1574-1NQ30

TIME RELAY, STAR-DELTA SINGLE TIME RANGE 20 S AC/DC 24 V, AC 100...127 V, 1...20 US

General technical details:		
product brand name		SIRIUS
product designation		timing relay
Protection class IP / on the front		IP40
Protection class IP / of the terminal		IP20
mounting position		any
Supply voltage frequency		
• 1 / for auxiliary and control current circuit		
initial rated value	Hz	50
• final rated value	Hz	60
Product function		
• star-delta circuit		Yes
with auxiliary voltage / pulse-shaping		No
at the relay outputs / changeover delayed/without delay		No
Product component / semi-conductor output		No
Product extension / optional / remote control		No
Product extension / strictly required / remote control		No
Installation altitude / at a height over sea level / maximum	m	2,000
Ambient temperature		
during storage	°C	-40 +85
during operating	°C	-25 +60
during transport	°C	-40 +85
Relative humidity		
during operating phase	%	15 70
Conductor-bound parasitic coupling BURST / according to IEC 61000-4-4		2 kV network connection / 1 kV control connection
Conductor-bound parasitic coupling conductor-earth SURGE / according to IEC 61000-4-5		2 kV
Conductor-bound parasitic coupling conductor-conductor SURGE / according to IEC 61000-4-5		1 kV
Electrostatic discharge / according to IEC 61000-4-2		4 kV contact discharge / 8 kV air discharge
Field-bound parasitic coupling / according to IEC 61000-4-3		10 V/m
Resistance against vibration		10 55 Hz / 0.35 mm

Impulse voltage resistance / rated value	V	4,000
Insulation voltage / rated value	V	300
Active power loss / total / typical	W	2
Item designation / according to DIN 40719 extendable after IEC 204-2 / according to IEC 750		К
Item designation / according to DIN EN 61346-2		К
Category / according to EN 954-1		none
Protection against electrical shock		finger-safe

Switching Function:

Slow-operating making pulse contact no firmly clocked beginning with pulse firmly clocked beginning with pause relapse delayed variably clocked start with impulse impuls variably clocked start with pause with auxiliary voltage in an additive way slow-operating temporary line fault relapse delayed without auxiliary voltage / relapse delayed without auxiliary voltage relapse delayed/instantaneous contact with auxiliary voltage felapse delayed/instantaneous contact with government of the pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact no slow-operating/relapse delayed/instantaneous contact no himly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact No pulse modelling/instantaneous contact No		
making pulse contact firmly clocked beginning with pulse firmly clocked beginning with pause relapse delayed variably clocked start with impulse impuls variably clocked start with pause impuls variably clocked start with pause impuls variably clocked start with pause with auxiliary voltage in an additive way slow-operating veriapse delayed in without auxiliary voltage / relapse delayed without auxiliary voltage / relapse delayed slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact with clocked beginning with pause/instantaneous contact No firmly clocked beginning with pause/instantaneous contact with auxiliary voltage relapse contact/instantaneous contact No with auxiliary voltage temporary line fault/instantaneous contact No variably clocked beginning with pause/instantaneous contact No No	Switching function	
• firmly clocked beginning with pulse • firmly clocked beginning with pause • relapse delayed • variably clocked start with impulse • impuls variably clocked start with pause • with auxiliary voltage • in an additive way slow-operating • temporary line fault • relapse delayed • without auxiliary voltage / relapse delayed • without auxiliary voltage / relapse delayed • slow-operating/instantaneous contact • with auxiliary voltage • relapse delayed/instantaneous contact • slow-operating/relapse delayed/instantaneous contact • No • with auxiliary voltage • temporary line fault/instantaneous contact No • pulse modelling/instantaneous contact No	• slow-operating	No
• firmly clocked beginning with pause • relapse delayed • variably clocked start with impulse • impuls variably clocked start with pause • with auxiliary voltage • in an additive way slow-operating • temporary line fault • relapse delayed • without auxiliary voltage / relapse delayed • without auxiliary voltage / relapse delayed • without auxiliary voltage • relapse delayed/instantaneous contact • with auxiliary voltage • relapse delayed/instantaneous contact • slow-operating/relapse delayed/instantaneous contact • No • slow-operating/relapse delayed/instantaneous contact No	making pulse contact	No
relapse delayed variably clocked start with impulse impuls variably clocked start with pause with auxiliary voltage in an additive way slow-operating vemporary line fault relapse delayed without auxiliary voltage / relapse delayed slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact vith auxiliary voltage temporary line fault/instantaneous contact No vith auxiliary voltage temporary line fault/instantaneous contact No pulse modelling/instantaneous contact No	 firmly clocked beginning with pulse 	No
variably clocked start with impulse impuls variably clocked start with pause with auxiliary voltage in an additive way slow-operating in an additive way slow-operating in emporary line fault relapse delayed individual auxiliary voltage / relapse delayed without auxiliary voltage / relapse delayed individual auxiliary voltage / relapse delayed individual auxiliary voltage indivi	 firmly clocked beginning with pause 	No
impuls variably clocked start with pause with auxiliary voltage in an additive way slow-operating temporary line fault relapse delayed without auxiliary voltage / relapse delayed slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact vith auxiliary voltage relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact No pulse modelling/instantaneous contact No	relapse delayed	No
with auxiliary voltage in an additive way slow-operating temporary line fault relapse delayed No without auxiliary voltage / relapse delayed No slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact No slow-operating/relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact No pulse modelling/instantaneous contact No No No No No No No No No	 variably clocked start with impulse 	No
in an additive way slow-operating temporary line fault relapse delayed without auxiliary voltage / relapse delayed slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact no slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No No No	 impuls variably clocked start with pause 	No
• temporary line fault • relapse delayed • without auxiliary voltage / relapse delayed • slow-operating/instantaneous contact • with auxiliary voltage • relapse delayed/instantaneous contact • slow-operating/relapse delayed/instantaneous contact • slow-operating/relapse delayed/instantaneous contact • firmly clocked beginning with pause/instantaneous contact • making pulse contact/instantaneous contact • with auxiliary voltage • temporary line fault/instantaneous contact • pulse modelling/instantaneous contact • No	with auxiliary voltage	
relapse delayed without auxiliary voltage / relapse delayed slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No pulse modelling/instantaneous contact No	• in an additive way slow-operating	No
without auxiliary voltage / relapse delayed slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact No pulse modelling/instantaneous contact No No	• temporary line fault	No
slow-operating/instantaneous contact with auxiliary voltage relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No pulse modelling/instantaneous contact No	• relapse delayed	No
with auxiliary voltage	 without auxiliary voltage / relapse delayed 	No
 relapse delayed/instantaneous contact slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No 	• slow-operating/instantaneous contact	No
slow-operating/relapse delayed/instantaneous contact firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No	with auxiliary voltage	
 firmly clocked beginning with pause/instantaneous contact making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No 	 relapse delayed/instantaneous contact 	No
 making pulse contact/instantaneous contact with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No 	• slow-operating/relapse delayed/instantaneous contact	No
with auxiliary voltage temporary line fault/instantaneous contact pulse modelling/instantaneous contact No	• firmly clocked beginning with pause/instantaneous contact	No
 temporary line fault/instantaneous contact pulse modelling/instantaneous contact No 	 making pulse contact/instantaneous contact 	No
• pulse modelling/instantaneous contact No	with auxiliary voltage	
	• temporary line fault/instantaneous contact	No
	• pulse modelling/instantaneous contact	No
• slow-operating/instantaneous contact No	• slow-operating/instantaneous contact	No

General details:		
Type of voltage / of the controlled supply voltage		AC/DC
Control supply voltage frequency		
•1	Hz	50 60
Control supply voltage		
• 1		

٧

24

• at 50 Hz / for AC / rated value

• at 60 Hz / for AC / rated value	V	24
• for DC / rated value	V	24
• 2		
• at 50 Hz		
• for AC	V	100 127
• at 60 Hz		
• for AC	V	100 127
Operating range factor control supply voltage rated value		
• at 50 Hz		
• for AC		0.85 1.1
• at 60 Hz		
• for AC		0.85 1.1
• for DC		0.85 1.1

Auxiliary circuit:		
Operating current / of auxiliary contacts		
• as normally closed contact / for AC-15		
• at 24 V	Α	3
• at 250 V	Α	3
• as normally open contact / for AC-15		
• at 24 V	Α	3
• at 250 V	Α	3
• at AC-15		
• maximum	Α	3
• at DC-13		
• at 24 V	Α	1
• at 125 V	Α	0.2
• at 250 V	Α	0.1
Number of NC contacts / delayed switching		0
Number of NC contacts / non-delayed		0
Number of NO contacts / delayed switching		1
Number of NO contacts / non-delayed		1
Number of change-over switches / delayed switching		0
Number of change-over switches / non-delayed		0

Short-circuit:		
Design of the fuse link / for short-circuit protection of the auxiliary switch / required	fuse gL/gG: 4 A	
Type of mounting	screw and snap-on mounting onto 35 mm standard mounting rail	

Installation/mounting/dimensions:

Width	mm	22.5
Height	mm	83
Depth	mm	91
Distance, to be maintained, to the ranks assembly		
• upwards	mm	0
• forwards	mm	0
• sidewards	mm	0
• backwards	mm	0
downwards	mm	0
Distance, to be maintained, to earthed part		
• backwards	mm	0
• sidewards	mm	0
• upwards	mm	0
• forwards	mm	0
• downwards	mm	0
Distance, to be maintained, conductive elements		
• downwards	mm	0
• backwards	mm	0
• sidewards	mm	0
• forwards	mm	0
• upwards	mm	0

Connections:		
Design of the snap-on socket base		none
Design of the electrical connection		
• jumper socket		No
for auxiliary and control current circuit		screw-type terminals
Type of the connectable conductor cross-section / for auxiliary contacts / solid		0.5 4 mm², 2x (0.5 2.5 mm²)
Conductor cross-section that can be connected / for auxiliary contact / solid		
• minimum	mm²	0.5
• maximum	mm²	4
Type of the connectable conductor cross-section / for auxiliary contacts / finely stranded / with conductor end processing		0.5 2.5 mm², 2x (0.5 1.5 mm²)
Conductor cross-section that can be connected / for auxiliary contact / finely stranded / with conductor end processing		
• minimum	mm²	0.5
• maximum	mm²	2.5
Type of the connectable conductor cross-section / for AWG conductors / for auxiliary contacts		2x (20 14)

AWG number / as coded connectable conductor cross-section / for auxiliary contact

- minimum
- maximum
