

General operating condition

## **Data sheet**

Overall data sheet – Individual values depend upon your configuration.

| Feature                                      | Value                                                              |
|----------------------------------------------|--------------------------------------------------------------------|
| Stroke                                       | 10 mm 200 mm                                                       |
| Piston diameter                              | 12 mm                                                              |
| Drive unit operating mode                    | Yoke                                                               |
| Cushioning                                   | Elastic cushioning rings/pads at both ends                         |
| Mounting position                            | Any                                                                |
| Guide                                        | Sliding guide<br>Recirculating ball bearing guide                  |
| Structural design                            | Guide                                                              |
| Position sensing                             | For proximity sensor                                               |
| Variants                                     | Heat-resistant seals max. 120°C                                    |
| Operating pressure                           | 0.2 MPa 1 MPa                                                      |
| Operating pressure                           | 2 bar 10 bar                                                       |
| Mode of operation                            | Double-acting Double-acting                                        |
| CE marking (see declaration of conformity)   | as per EU explosion protection directive (ATEX)                    |
| UKCA marking (see declaration of conformity) | acc. to UK EX instructions                                         |
| Explosion prevention and protection          | Zone 1 (ATEX)<br>Zone 2 (ATEX)                                     |
| ATEX category gas                            | II 2G                                                              |
| Type of ignition protection for gas          | Ex h IIC T4 Gb                                                     |
| Explosive ambient temperature                | -20°C <= Ta <= +70°C                                               |
| Operating medium                             | Compressed air as per ISO 8573-1:2010 [7:4:4]                      |
| Information on operating and pilot media     | Operation with oil lubrication possible (required for further use) |
| Corrosion resistance class (CRC)             | 0 - No corrosion stress<br>2 - Moderate corrosion stress           |
| LABS (PWIS) conformity                       | VDMA24364-B1/B2-L                                                  |
| Ambient temperature                          | -20 °C 120 °C                                                      |
| Impact energy in the end positions           | 0.035 J 0.07 J                                                     |
| Theoretical force at 6 bar, retracting       | 51 N                                                               |
| Theoretical force at 6 bar, advancing        | 68 N                                                               |
| Alternative connections                      | See product drawing                                                |
| Pneumatic connection                         | M5                                                                 |
| Note on materials                            | RoHS-compliant                                                     |
| Cover material                               | Wrought aluminum alloy                                             |
| Seals material                               | NBR                                                                |
| Housing material                             | Wrought aluminum alloy                                             |

| Feature             | Value                      |
|---------------------|----------------------------|
| Piston rod material | High-alloy stainless steel |
