

# Sensor bracket SIEZ-NB-8

Part number: 538345

FESTO

 [General operating condition](#)

## Data sheet

| Feature                                    | Value                   |
|--------------------------------------------|-------------------------|
| Ambient temperature                        | -25 °C ... 80 °C        |
| Size                                       | M8                      |
| Type of mounting                           | With through-hole       |
| Product weight                             | 3.5 g                   |
| Housing material                           | PA-reinforced           |
| Corrosion resistance class (CRC)           | 0 - No corrosion stress |
| Selection of additional sensor information | Mounting attachments    |
