| General information                                         |                  |
|-------------------------------------------------------------|------------------|
| Multi-user system                                           |                  |
| Multi-user capability                                       | Yes              |
| Number of servers, max.                                     | 12               |
| Number of clients for server without operator console, max. | 32               |
| Web clients                                                 | Yes              |
| Operator control and monitoring                             |                  |
| Object block library                                        | Yes ; Integrated |
| With alarm logging system (incl. buffer and acknowledgment) | Yes ; Integrated |
| Report system/log system                                    | Yes              |
| SQL database                                                | Yes ; Integrated |
| Process diagnostics                                         | No               |
| Sector-specific and technological expansions                | Yes              |
| Recipes                                                     |                  |
| User archive/recipe management                              | Yes              |
| Interfaces                                                  |                  |
| Programming interfaces                                      | Yes              |
| OPC-DA interface, Server                                    | Yes              |

|                                                |              |
|------------------------------------------------|--------------|
| <b>OPC-DA interface, Client</b>                | Yes          |
| <b>Hardware requirements</b>                   |              |
| <b>Processor clock frequency, min.</b>         | 1 GHz        |
| <b>Main memory, min.</b>                       | 1000 Mbyte   |
| <b>Configuration</b>                           |              |
| <b>Max. number of multiusers configuration</b> | 32           |
| <b>Online configuration</b>                    | Yes          |
| <b>Script languages (Runtime)</b>              |              |
| <b>Number of Visual Basic Scripts</b>          | Yes          |
| <b>other</b>                                   | Yes          |
| <b>Know-how protection</b>                     |              |
| <b>Password protection</b>                     | Yes          |
| <b>Languages</b>                               |              |
| <b>Configuration languages</b>                 |              |
| <b>Number of configuration languages</b>       | 70           |
| Status                                         | Jul 14, 2014 |
