SITOP BUF8600/300MS/40A

SITOP BUF8600 300ms buffer module for PSU8600 buffer capacity 300 ms/40 A with electrolytic capacitors maintenance-free

memory	
type of energy storage	electrolytic capacitors
design of the mains power cut bridging-connection	Backup time with 40 A load current: 300 ms
buffering time for rated value of the output current in the event of power failure	300 ms
load time typical	60 s; at 400 V
output	
output current	
rated value	40 A
protection and monitoring	
display version	3-color LED for operating state module
 for normal operation 	LED green for "buffer standby exist"
• in buffering mode	LED yellow for "buffered mode"
interfaces	
product function communication function	Yes
design of the interface	Ethernet/PROFINET via power supply unit PSU8600
safety	
operating resource protection class	Class III
protection class IP	IP20
standard	
• for emitted interference	EN 55022 Class B
• for interference immunity	EN 61000-6-2
standards, specifications, approvals	
certificate of suitability	
CE marking	Yes
UL approval	Yes; cULus-Listed (UL 508, CSA C22.2 No. 107.1), File E197259
CSA approval	Yes; cCSAus (CSA C22.2 No. 62368-1, UL 62368-1)
EAC approval	Yes
• SEMI F47	Yes
type of certification CB-certificate	Yes
MTBF at 40 °C	4 505 531 h
standards, specifications, approvals hazardous environments	
certificate of suitability	
• ATEX	No
• cCSAus, Class 1, Division 2	No
standards, specifications, approvals marine classification	
shipbuilding approval	Yes
Marine classification association	
American Bureau of Shipping Europe Ltd. (ABS)	Yes
Det Norske Veritas (DNV)	Yes

ambient conditions					
ambient temperature					
 during operation 	-25 +60 °C; with natural conv	rection			
during transport	-40 +70 °C				
during storage	-40 +70 °C				
environmental category according to IEC 60721	Climate class 3K3, 5 95% no	condensation			
connection method					
suitability for interaction modular system	Yes				
type of connection to system components	Via integrated connector				
mechanical data					
width × height × depth of the enclosure	125 × 125 × 150 mm	125 × 125 × 150 mm			
installation width × mounting height	125 × 225 mm				
required spacing					
• top	50 mm	50 mm			
• bottom	50 mm	50 mm			
● left	0 mm				
• right	0 mm				
fastening method	Snaps onto DIN rail EN 60715	35x15			
standard rail mounting	Yes	·			
S7 rail mounting	No				
wall mounting	No				
housing can be lined up	Yes				
net weight	2.26 kg				
accessories					
mechanical accessories	Device identification label 20 m	m × 7 mm TI-arev 3RT29	900-1SB20

In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
