

# Multi-socket KDVF-16-B

Part number: 7564

**FESTO**

 [General operating condition](#)

## Data sheet

| Feature                                  | Value                                                              |
|------------------------------------------|--------------------------------------------------------------------|
| Nominal width                            | 4 mm                                                               |
| Operating pressure                       | -0.95 bar ... 16 bar                                               |
| Operating medium                         | Compressed air as per ISO 8573-1:2010 [7:-:-]                      |
| Information on operating and pilot media | Operation with oil lubrication possible (required for further use) |
| Corrosion resistance class (CRC)         | 2 - Moderate corrosion stress                                      |
| LABS (PWIS) conformity                   | VDMA24364-B1/B2-L                                                  |
| Temperature of medium                    | -10 °C ... 60 °C                                                   |
| Ambient temperature                      | -10 °C ... 60 °C                                                   |
| Product weight                           | 64 g                                                               |
| Max. connections                         | 16                                                                 |
| Pneumatic connection                     | PK-2<br>PK-3<br>PK-4                                               |
| Color                                    | Gray                                                               |
| Note on materials                        | RoHS-compliant                                                     |
