Our EM Connectivity Box is a perfect combination of established products from the Weidmüller range. You can choose between aluminium and plastic enclosures to meet your requirements. The enclosures are milled to fit and fitted with the requisite cable bushings. A modular terminal block to suit the measuring instruments to be fitted is already installed inside.

There is also a labelled cable set which is specially adapted to the respective measuring equipment.

Your benefits at a glance:

- Fast and cost-saving installation
- No significant changes required in the panel and power distribution.
- All the fuses, short-circuit devices and labelled cables and circuit diagrams required are included
- No engineering required
- Protection classes up to IP65 (EM Connectivity Box TS)
- Can be ordered as a standard item
- Delivery from a lot size of 1
