

MOUNTING BRACKET IF,IG,II

Technical drawing of a mechanical part, showing multiple views and dimensions:

- Top View:** Shows a rectangular part with a total width of 82 and a length of 73. It features a central circular hole with a diameter of $\varnothing 20$. There are four smaller circular holes, each with a diameter of 4.2. The distance from the left edge to the first hole is 14, and the distance between the first and second holes is 8. The distance from the second hole to the third hole is 5, and the distance from the third hole to the fourth hole is 12. The distance from the fourth hole to the right edge is 26. The distance from the right edge to the center of the large hole is 5.3. The thickness of the part is 3.
- Bottom View:** Shows the underside of the part, with a total width of 92 and a length of 3. It features a central circular hole with a diameter of $\varnothing 20$. There are four smaller circular holes, each with a diameter of 4.2. The distance from the left edge to the first hole is 14, and the distance between the first and second holes is 8. The distance from the second hole to the third hole is 5, and the distance from the third hole to the fourth hole is 12. The distance from the fourth hole to the right edge is 26. The distance from the right edge to the center of the large hole is 5.3. The thickness of the part is 3.
- Left Side View:** Shows the left side of the part, with a total height of 37. It features a central circular hole with a diameter of $\varnothing 20$. There are four smaller circular holes, each with a diameter of 4.2. The distance from the top edge to the first hole is 17, and the distance between the first and second holes is 5. The distance from the second hole to the third hole is 3.3, and the distance from the third hole to the bottom edge is 4.5. The distance from the bottom edge to the center of the large hole is 12.5. The distance from the center of the large hole to the right edge is 16. The distance from the right edge to the center of the large hole is 5.5.
- Right Side View:** Shows the right side of the part, with a total width of 27. It features a central circular hole with a diameter of $\varnothing 20$. There are four smaller circular holes, each with a diameter of 4.2. The distance from the top edge to the first hole is 17, and the distance between the first and second holes is 5. The distance from the second hole to the third hole is 3.3, and the distance from the third hole to the bottom edge is 4.5. The distance from the bottom edge to the center of the large hole is 12.5. The distance from the center of the large hole to the right edge is 16. The distance from the right edge to the center of the large hole is 5.5.
