

E35064

Cooling jacket for infrared temperature sensors

COOLING JACKET

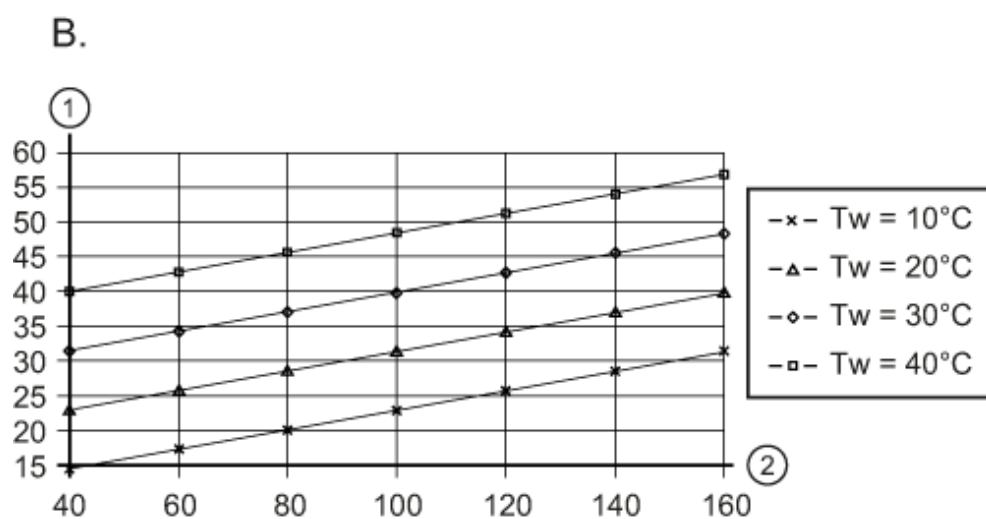

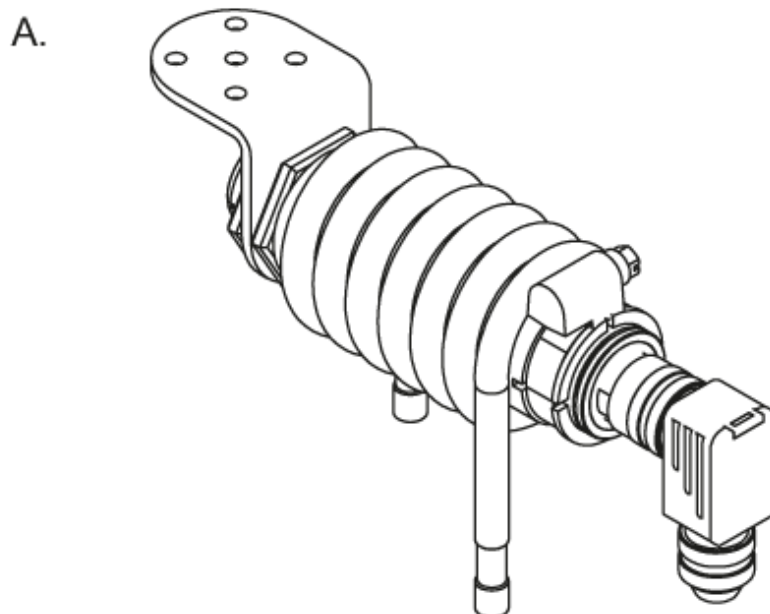

Application	
Design	for infrared temperature sensors TWxxxx, M30
Installation	sensor cooling (air or water); (TW)
Pressure rating	6 [bar]
Mechanical data	
Weight	388.6 [g]
Materials	brass; copper; steel galvanised
Remarks	
Pack quantity	1 pcs.

Cooling jacket for infrared temperature sensors

COOLING JACKET

Diagrams and graphs

A Installation

B cooling performance

inside temperature as a function of the outside temperature

T_w = cooling water temperature 1.6 L/min

1: inside temperature [°C]

2: outside temperature [°C]
