# E35068

# Cooling jacket for infrared temperature sensors

COOLING JACKET

Application		
Design		for infrared temperature sensors TWxxxx, M30
Installation		sensor cooling (air or water); (TW)
Pressure rating	[bar]	6
Mechanical data		
Weight	[g]	483.8
Materials		stainless steel (1.4301 / 304)
Remarks		
Pack quantity		1 pcs.

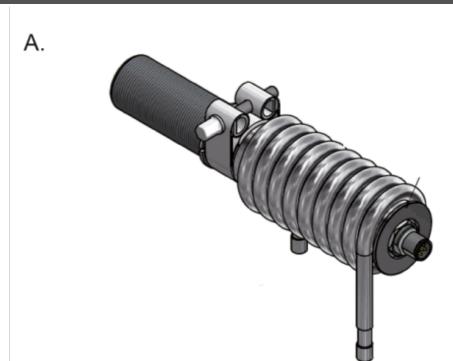

# E35068

### Cooling jacket for infrared temperature sensors

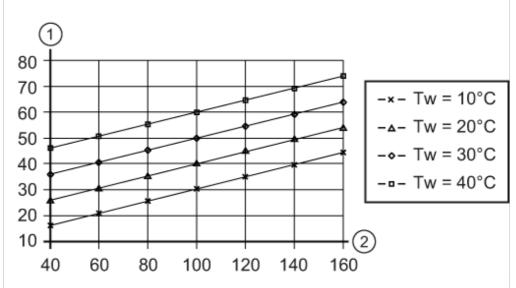

### Diagrams and graphs

B.

- A Installation
- B cooling performance inside temperature as a function of the outside temperature

Tw

- cooling water temperature 1 L/min
- 1: inside temperature [°C]
- 2: outside temperature [°C]
