

## Main

|                              |                                                                                  |
|------------------------------|----------------------------------------------------------------------------------|
| Device short name            | Motor mechanism module with SDE adaptor                                          |
| Product or component type    | Motor mechanism                                                                  |
| Device application           | Automatic spring charging                                                        |
| Range compatibility          | Compact NSX circuit breaker<br>Compact NSX DC circuit breaker<br>circuit breaker |
| Product compatibility        | PowerPact H-Frame<br>PowerPact J-Frame                                           |
| [In] rated current           | 160 A<br>100 A                                                                   |
| [Uc] control circuit voltage | 48...60 V DC                                                                     |

## Complementary

|                                 |                                                          |
|---------------------------------|----------------------------------------------------------|
| Control type                    | Standard                                                 |
| Control signal type             | Impulse<br>Maintained                                    |
| Mounting mode                   | Fixed                                                    |
| Response time                   | < 600 ms (opening)<br>< 80 ms (closing)                  |
| Maximum operating frequency     | 4 per minute                                             |
| Maximum power consumption in VA | 500 VA closing<br>500 VA opening                         |
| Provided equipment              | SDE adaptor                                              |
| Locking options description     | 1 to 3 padlocks Ø 5 to Ø 8<br>Padlocking in OFF position |

## Offer Sustainability
