Detailed technical data

Features

|                                 |                                                        |
|---------------------------------|--------------------------------------------------------|
| Device version                  | Standard                                               |
| Sensor/ detection principle     | Photoelectric proximity sensor, Background suppression |
| Dimensions (W x H x D)          | 16.2 mm x 45.5 mm x 34.4 mm                            |
| Housing design (light emission) | Hybrid                                                 |
| Thread diameter (housing)       | M18                                                    |
| Mounting system type            | M18, nose / side (24.1 ... 25.4 mm)                    |
| Housing color                   | Blue                                                   |
| Sensing range max.              | 5 mm ... 300 mm <sup>1)</sup>                          |
| Sensing range                   | 5 mm ... 150 mm <sup>2)</sup>                          |
| Type of light                   | Visible red light                                      |
| Light source                    | PinPoint LED <sup>3)</sup>                             |
| Light spot size (distance)      | 7 mm (300 mm)                                          |
| Wave length                     | 631 nm                                                 |
| Adjustment                      |                                                        |
| Potentiometer, right            | Sensing range                                          |
| Potentiometer, left             | Off delay, adjustable: 0 ... 2 s                       |
| Special features                | -                                                      |

<sup>1)</sup> Object with 90 % reflectance (referred to standard white, DIN 5033).

<sup>2)</sup> Object with 6 % reflectance (referred to standard black, DIN 5033).

<sup>3)</sup> Average service life: 100,000 h at T<sub>U</sub> = +25 °C.

## Mechanics/electronics

|                                       |                                                                                                                                                                                              |
|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Supply voltage</b>                 | 21.6 V DC ... 250 V DC, 96 V AC ... 250 V AC <sup>1)</sup>                                                                                                                                   |
| <b>Current consumption</b>            | 10 mA <sup>2)</sup>                                                                                                                                                                          |
| <b>Switching output</b>               | MOSFET                                                                                                                                                                                       |
| <b>Switching mode</b>                 | Light switching                                                                                                                                                                              |

| <b>Enclosure rating</b>               | IP67<br>IP69K                                                                                                                                                                                |
| <b>Items supplied</b>                 | Mounting nut (1x), M18, plastic, black, flat                                                                                                                                                 |
| <b>EMC</b>                            | EN 60947-5-2 (The sensor complies with the Radio Safety Requirements (EMC) for the industrial sector (Radio Safety Class A). It may cause radio interference if used in a residential area.) |
| <b>Ambient operating temperature</b>  | -40 °C ... +65 °C                                                                                                                                                                            |
| <b>Ambient storage temperature</b>    | -40 °C ... +75 °C                                                                                                                                                                            |
| <b>UL File No.</b>                    | E189383                                                                                                                                                                                      |

<sup>1)</sup> Above T<sub>a</sub> = 60 °C, max. supply voltage = 120 V.

<sup>2)</sup> Without load. The output load and sensor must use the same power source.

<sup>3)</sup> Signal transit time with resistive load.

<sup>4)</sup> With light/dark ratio 1:1.

<sup>5)</sup> A = V<sub>S</sub> connections reverse-polarity protected.

<sup>6)</sup> B = inputs and output reverse-polarity protected.

<sup>7)</sup> D = outputs overcurrent and short-circuit protected.

<sup>8)</sup> Reference voltage: 250 V AC, overvoltage category 2.

## Functions

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

**For us, that is “Sensor Intelligence.”**
