Detailed technical data

Features

Device type	Tip adapter for fiber through-beam system
Detection principle	Through-beam system
For fiber-optic	LL3-TN01, LL3-TN011300
Sleeve material	Aluminum
Thread diameter (housing)	M2.6
Ambient operating temperature	-60 °C ... +350 °C
Angle of dispersion	11°
Lens material	Glass
Items supplied	2 pieces
Special features	Vacuum resistance, Temperature resistance

Mechanics/electronics

Optics material	Glass
Ambient operating temperature	-60 °C ... +350 °C

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
